

The background of the slide is composed of 100 overlapping, semi-transparent, rounded rectangular shapes (blobs) in various shades of teal and blue. These shapes are arranged in a way that creates a sense of depth and movement, with some shapes appearing more prominent than others. The colors range from a deep, dark teal to a lighter, almost white-blue.

# 100 random blobs

February the 12th, 2016 — Vasilis van Gemert

Every day my webserver generates a new book, filled with blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
